EXAMINER AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dilip C. Andrade on January 11, 2005 at 5:20 pm EST.

The application has been amended as follows: Figure 3 block 106 the output to the side shall be label "No" (see attachment).

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figure 3, block 106 the output to the side shall be label "No" (see attachment). In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: claims 1-3 and 5-16 are allowed because the references cited fail to teach, as applicant has, a method of synchronizing an internal clock in a communications system extracting an original timestamp from a received signal, setting a time value of the internal clock to a value derived from the original timestamp, extracting a subsequent timestamp from the received signal, determining the difference between the subsequent timestamp and the time value and incrementing a fault counter if the magnitude of the difference exceeds a timing threshold, resetting the clock to a value determined from the subsequent

Art Unit: 2631

timestamp if the fault counter exceeds a fault threshold, and modifying the rate of change of the internal clock if the difference exceeds a rate of change threshold and does not exceed a timing threshold. None of the references teach the use of a default counter that if the magnitude of the difference exceeds a timing threshold, is incremented, and will reset the internal lock to a value determined from the subsequent timestamp if the fault counter exceeds a fault threshold, as the applicant has claimed.

CONCLUSION

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Juan A. Torres whose telephone number is (571) 272-3119. The examiner can normally be reached on Monday-Friday 9:00 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mohammad H. Ghayour can be reached on (571) 272-3021. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
